EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

The paragraph starting on line 3 of page 1 in the specification has been replaced by the following paragraph:

This application claims the filing benefit of copending U.S. Provisional Application Serial No. 60/113,086 filed on December 21, 1998 and entitled "ROTARY VALVE ASSEMBLY", such provisional application being hereby incorporated by reference herein in its entirety, and is a divisional application to U.S. Application Serial No. 09/772,782 filed on January 30, 2001, now U.S. Patent No. 6,332,600.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose a rotary valve comprising a valve body, a shaft, a seal assembly including retainers housing a resilient annular seal, a rotatable disc having an elliptical periphery, and an elliptical cavity formed between the first and second retainers, the elliptical cavity arranged to deform the resilient annular seal to an elliptical shape. The closest prior art, Scobie et al. (US Patent No. 4,659,064) fails to disclose an

elliptical cavity arranged to deform the resilient annular seal to an elliptical shape and there is no motivation, absent the applicant's own disclosure, to modify the Scobie et al. reference in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
